Introduction

Thank you for purchasing the W41CA.
Before using it for the first time, be sure to read the W41CA Basic Manual (this PDF manual) so as to know how to use it correctly. After you finish reading this manual, store it and the printed materials that come with the phone in a safe place for future reference.

Printed Manuals for the W41CA (Japanese)

The W41CA comes with a Basic Manual and an Instruction Manual.

Cellphone Etiquette

Mind your manners!

A cellphone always emits weak radio waves while it is turned on. Enjoy operation of your cellphone without forgetting to be considerate of those around you.

Some locations do not allow the use of cellphones.

- Using a cellphone while driving is both dangerous and prohibited by Japanese law.
- Using a cellphone inside of an aircraft is prohibited by law. Be sure to turn off your cellphone before takeoff.

Watch out where you use your cellphone, and keep your voice down.

- Do not make calls at cinemas, theaters, museums, libraries, or other similar locations. Turn off the cellphone or use Manner Mode to ensure that the ring tone does not disturb others.
- When in public, move to a location where you will not be blocking traffic.
- On the Shinkansen, in a hotel lobby, or in other similar locations, move to a location where you will not disturb others.
- Take care to avoid talking on the phone in a loud voice.
- Before taking the picture of others, be sure to obtain permissions first.

Cellphone radio waves may interfere with electrical medical equipment.

- On a train or in other crowded locations, there is always the possibility that someone nearby may be wearing a pacemaker. Turn off your cellphone when you are in a crowded area.
- Follow the rules of hospitals and other medical facilities concerning the use or possession of cellphones.

Checking Power, Signal Strength, and Battery Level

Normally leave the phone turned on.

The phone needs to be turned on to make and receive calls.

Hold down 電源 for at least 1.5 seconds to turn on the phone.

Page 14

You cannot talk on the phone if it is unable to receive a signal.

Signal strength is low in some areas, even if they are within the service area.

Keep an eye on the battery level.

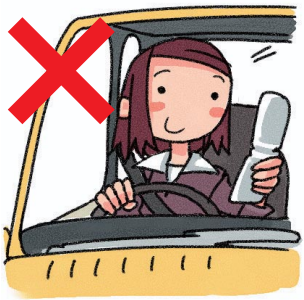

The phone may not function properly if battery power is low.

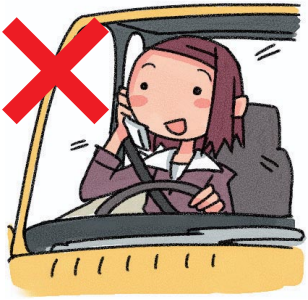

indicates the current battery level. Page 14

Never use your cellphone while driving!

Holding a cellphone in your hand, talking on a cellphone, or looking at a cellphone display to send mail or to perform any other operation while driving is prohibited by Japanese law.
(Revised Traffic Control Law, effective November 1, 2004)

× Reading mail or looking at the display.

× Holding a cellphone in your hand to talk.

Turn off your cellphone or use Drive Mode while driving.

Drive Mode

In Drive Mode, the phone will play the message "ただいま車を運転しています。･･･" (I am driving right now...), and then ask the caller to leave a message using Easy Voice Memo.

While the standby screen is displayed, press マナー, and then press 1 あ @ (ON). Next, press 2 か ABC (Drive Mode) to enter Drive Mode.

Beware of spam and one-ring calls!

How to Combat Spam

You can set up mail filters to block specific mail or mail identified as “未承諾広告※” (unsolicited advertisement), which often includes spam.
Your cellphone has the following filters to block spam.

・未承諾広告フィルター
(unsolicited advertisement filter)
・アドレスフィルター (address filters)
－指定拒否設定 (blocks specific mail)
－指定受信設定 (receives specific mail)

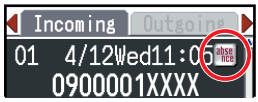

Page 55

Beware of one-ring calls!

A “one-ring call” (wan-giri in Japanese) rings your phone only once, in an attempt to make you call back to a service that automatically bills you very high charges.

The absence icon at the head of an incoming record indicates that the call rang for only four seconds or less.
This indicates a possible “one-ring call.”

Disaster Message Board Service

Disaster Message Board

The Disaster Message Board lets you use EZweb to register information about your well-being in case of a major disaster. The information you register can be accessed from anywhere in Japan over EZweb or the Internet.

Registering the safety information

◆ When a major disaster strikes, you can use your au cellphone to access the "災害用伝言板" (Disaster Message Board) on EZweb and register your current condition, comments, and other information about your well-being.
◆ After you register information, it can be sent by mail to family, friends, and other individuals you have registered as a recipient of your Disaster Message Board information.

Checking the safety information

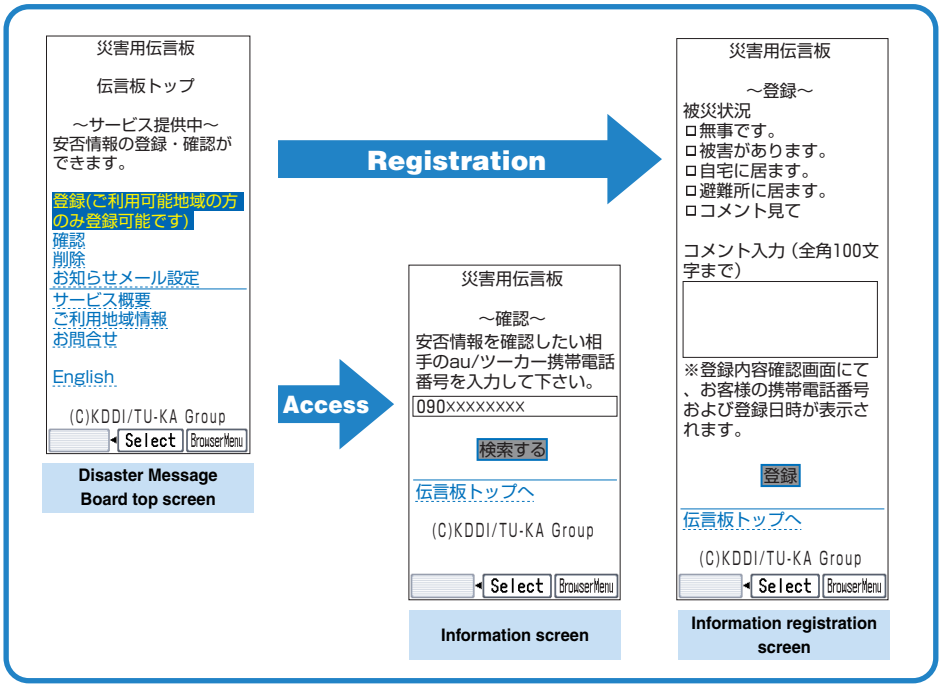

◆ Disaster Message Board information can be accessed by inputting the phone number of an individual over EZweb or the Internet.※
※ Disaster Message Board information can be accessed from another type of cellphone (except for TU-KA), PHS, or PC at http://dengon.ezweb.ne.jp/.

Access method

※1: During a call, do not cover the microphone with your hands or your chin. The microphone (placed shown above) allows you to talk over your W41CA in Viewfinder position.

※2: Take care to avoid covering the built-in antenna with your hand when using the phone, using EZweb, and when accessing GPS information.

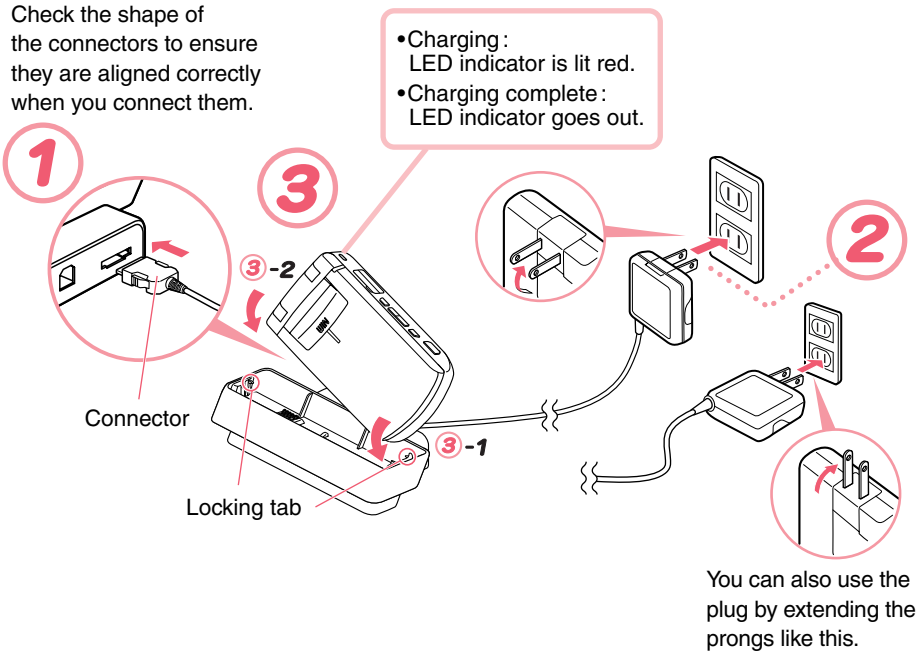

※Do not take out this card if not necessary as your number is recorded on it.

Side

Charging the Battery Pack

The battery pack that comes with the phone is not fully charged when you purchase it. Be sure to charge the battery pack before using the W41CA for the first time. Charging takes about 120 minutes.
You should recharge the battery pack whenever the battery level icon shows or .

CAUTION

◎You must purchase a common AC adaptor 01 (option) for charging. Note that the configuration of the AC adaptor may be different from that shown in the illustration above.
◎Pull out the connector of the common AC adaptor 01 (option) straight so as to be parallel to the W41CA or the desktop holder connector terminal when you connect them.

1 Connect the common AC adaptor 01 (option) to the desktop holder.

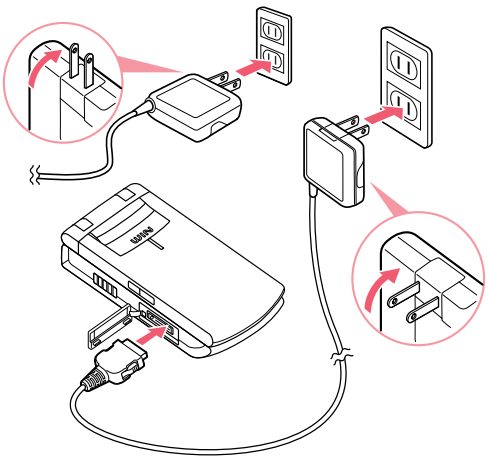

Check the shape of the connectors to ensure they are aligned correctly before you connect.
Trying to force a connection may damage the connectors.

2 Fold out the power plug of the common AC adaptor 01 (option), and then plug it into a 100V AC power outlet.

3 Attach the corner of the W41CA (as shown on the left page) into (③-1), then place the other corner of the W41CA into (③-2) of the desktop holder.

This will make the W41CA charge LED indicator light red, and the battery level icon to change according to the following pattern: → → → →
When charging is completed, the battery level icon will show FULL and the LED indicator will go out.
When charging the battery with your W41CA in Viewfinder position, check the battery level icon shown on the screen. When charging in Viewfinder position, the screen keeps illuminating with lowered brightness. If you set “Func in Charge” to “MEDIA STAND,” the screen keeps illuminating with the normal brightness.
To remove the W41CA from the desktop holder, lift it straight up.

※ You can connect the common AC adaptor 01 (option) to the W41CA to charge the battery pack.

Check the shape of the connectors to ensure they are aligned correctly when you connect.

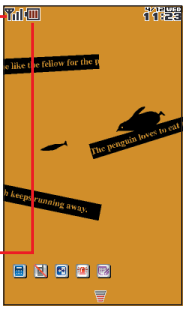

Turning On Power

1 **Hold down 電源 for at least 1.5 seconds.**

The standby screen appears.

Main Menu

Pressing ● while the standby screen is displayed displays the main menu. Use ✣ to select the icon, and then press ● (OK) to access the function associated with the icon.

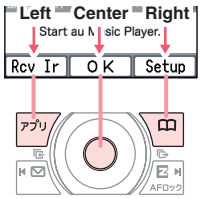

Using the Main Menu

Example: To display the setting screen from the main menu.

Using Soft Keys

Soft keys are the keys you use to execute the functions along with the bottom of the screen. The table below explains how to assign the soft keys to the on-screen functions. Note that the function of each soft key depends on the currently displayed screen.

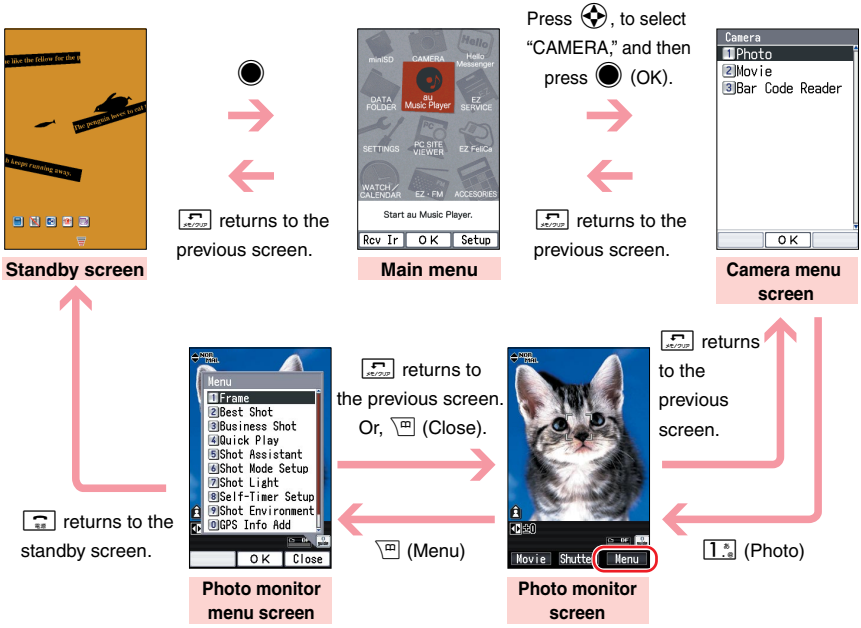

Left soft key (アプリ)	Executes the function on the left.
Center soft key (●)	Executes the function in the center.
Right soft key (📖)	Executes the function on the right.

Using Menus

Pressing the soft key that corresponds to the “Menu” at the bottom of the display will display a menu of various operations related to the function you are currently using.

Example: To open the photo monitor menu screen from photo monitor screen.

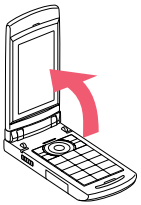

Viewfinder Position and Self-portrait Position

You can execute the operations with your W41CA open, set in Viewfinder position or Self-portrait position.

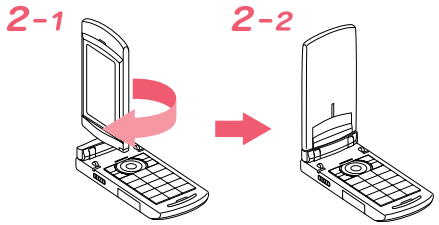

CAUTION

◎Rotate your W41CA display in the direction as illustrated below (within 180 degrees from the normal position). Gently rotate your W41CA display. Otherwise, you may damage your W41CA.
◎During rotating (motion **2-1**), do not use your W41CA or force to give open-close motion. It may also cause damage.

1 **Open your cellphone display.**

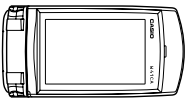

2 **Gently rotate the display 180 degrees clockwise.**

■When you set your W41CA in Viewfinder position

3 **Close your W41CA so as to make your W41CA display facing toward you.**

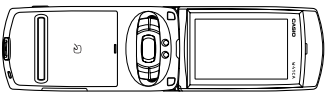

● Viewfinder position

Viewfinder position refers to the position with your W41CA closed and its display turned over. In Viewfinder position, you can use side keys to operate your W41CA.
You can view received mails or EZweb using side keys (マナー, ●, ▼ ▲, ◀ ▶, ▭). You can also take photos using W41CA as a large Viewfinder (digital camera-like).

■When you set your W41CA in Self-portrait position

3 **Turn over your W41CA so as to make camera lens (equipped on the back of your W41CA) facing toward you.**

● Self-portrait position

You can take your self-portrait photo easily with this position.

Basic Operations in Viewfinder Position

In Viewfinder position, you can view received mails or EZweb, and play the songs listed with au Music Player function (by pressing side keys). Instead of the ⊕ / ●, five kinds of side keys (マナー, ◎, ▼ ▲, ◄ ►, ▭) can be used in Viewfinder position.
マナー returns to the previous screen.

Key operations in Viewfinder position

Key	Description
マナー	• Displays the Manner menu. • Toggles Manner Mode on and off (hold down for about one second). • Set the ring tone mute and stop the vibrator when there is an incoming call. • Returns to previous screen. • Returns to the standby screen (hold down for about one second). • Hangs up (hold down for about one second).
▼ ▲ ◄ ►	• Pressing ▼ ▲ displays outgoing/incoming records. • Pressing ◄ ► displays Calendar/the standby shortcut icon. • Moves the cursor on the screen (instead of ⊕ (Up/Down/Left/Right key).
◎	• Displays the Main menu • Executes the function in the center part of the bottom of the screen (instead of ● (Center key). • Answers the call when there is an incoming call (hold down for about one second).
▭	• Uses as shutter key when you shoot photos • Uses as recording key when you record movies • Saves photos or movies • Activates photo function (hold down for about one second).

Info

◎In Viewfinder position, you can only execute the operations using side keys. When needed, you can execute other operations with your cellphone open.
◎You can make or answer a call in Viewfinder position.
◎During a call in Viewfinder position, check the earpiece position to hear the caller's voice properly. During a call or recording a call, the image you see on the screen is upside down.
◎During a call, it is recommended to use your cellphone opened.
◎In this manual, operation procedures are usually for the normal position (with display facing inward toward the keypad). For operations in Viewfinder or self-portrait position (with display facing outward), which position you can use is clearly mentioned.
The ⊕ is always equivalent to ▼ ▲. Also, The ● is always equivalent to ◎.

One-ring Calls

What is a "one-ring call"?

A "one-ring call" is an incoming call that rings your phone only once, which aims it to be stored in your incoming records. If you redial the number shown in your incoming records, often you are connected to a dating service or some other service that may bills you very high charges. Always keep in mind that it is a good idea to avoid calling back unfamiliar numbers.

One-ring call indicator

The abse nce icon indicates an incoming call you did not answer.
The abse nce icon indicates an incoming call that rang for four seconds or less.
These calls may be one-ring call with high possibility.

Mail

EZweb subscription required

Your W41CA supports two types of mail: e-mail and C-mail.

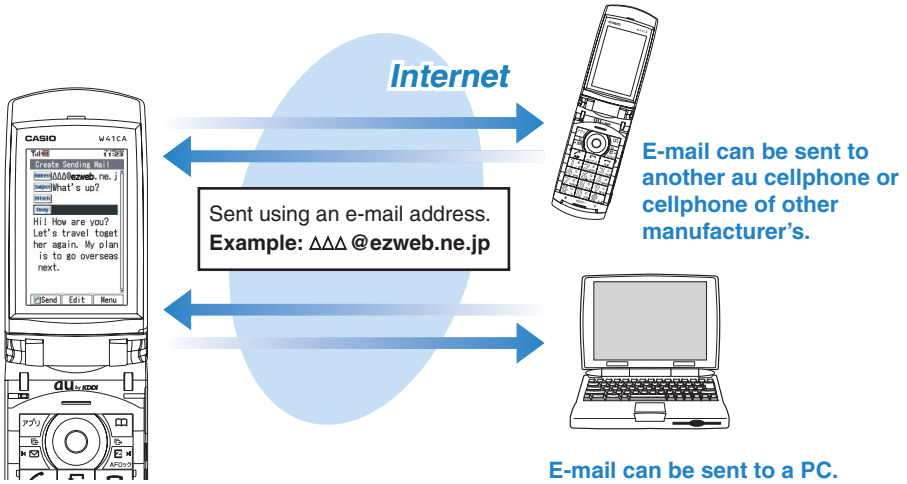

Using E-mail

To use e-mail, you need to subscribe to an EZweb service. If you did not subscribe when you purchased your phone, contact your nearest au shop or the au Customer Service Center.
In addition to an EZweb subscription, you also need to perform an initialization procedure before you can use e-mail. If you have not performed initialization yet, refer to “Initializing E-mail and EZweb” (page 24).

E-mail makes you possible to exchange mails with a PC and with another cellphone that supports e-mail function.
You can send mail messages that contain up to 5,000 double-byte characters (10,000 single-byte characters), and you can attach photos and movies to e-mail messages.

Page 50

※You can send an e-mail up to five addressees at a time.
※You can send up to 1,000 e-mail messages (each addressee counts as a separate message) per day.
※The sending and receiving operations may take longer when a mail message has data attached.

Using C-mail

C-mail lets you exchange text messages that contain up to 50 double-byte characters (100 single-byte characters) with another au cellphone that supports C-mails.

Camera Features

Your W41CA comes with a built-in 2.1-megapixel, 2.07-million effective pixel camera to shoot photos and record movies. You can attach the photos and movies that you shot/recorded to e-mail messages.

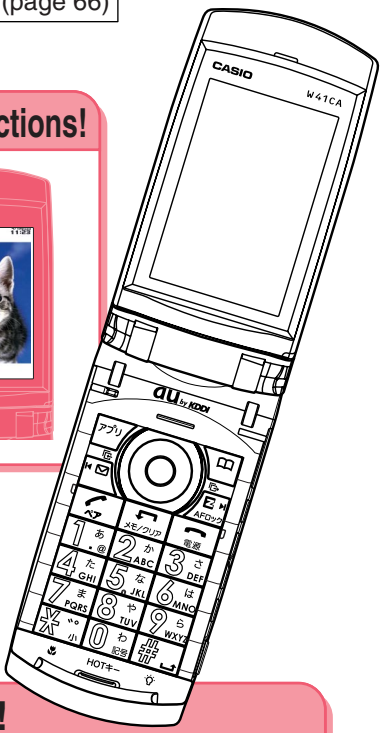

Using the Camera

Shooting a Photo (page 64)　Recording a Movie (page 66)

1 Use your images for W41CA functions!

You can use photos you shot for the standby screen, for the image that appears while the ring tone is sounding, and in your address book.

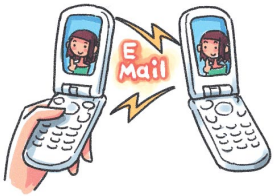

2 Send images by e-mail!

Within 500KB※, you can send a photo or a movie (shot or recorded with Mail Mode) as an e-mail attachment.

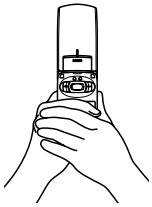

※ Certain signal conditions may cause e-mail send and receive to take longer than normal.

Tips for Better Photos

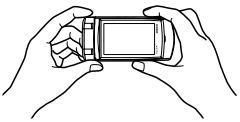

Shooting with the cellphone open

Do not cover the lens or optical sensor with your hands. Hold the camera securely with both hands. Use your thumb to press ● (Shutter) to release the shutter.

Shooting in the Viewfinder position

Do not cover the lens or optical sensor with your hands. Hold the camera securely with both hands.
Use the index finger of your right hand to press ▭ to release the shutter.

Tips for Avoiding Hand Movement

- Remain steady by keeping your arms lightly against your sides and standing with your feet about shoulder width apart. Having your arms away from your side or extended in front of you can cause blurred images.
- When you press the shutter button, remain still until your shutter tone finishes sounding. This is especially important when shooting where lighting is dim.
- A self-timer is also provided for shooting photos. With the self-timer, you do not need to press the shutter button to shoot a photo, so there is less chance of a blurred image caused by accidental movement of the phone.

Auto focus

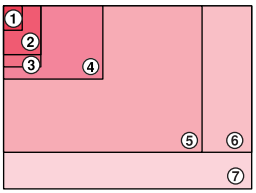

W41CA has built-in auto focus function. You can shot photos with the subject properly focused simply by pressing the shutter key.

Teens Mode

Teens Mode can be used to block spam, and to block inadvertent access to phone numbers and URLs included inside mail messages. Teens Mode can also be used to restrict call time and the number of mail (sended).

Using Teens Mode

Teens Mode can be used to restrict mail reception and display contents.

When the sender is a Pair partner	Receipt is allowed.
When the sender is included in the address book	Receipt is allowed. However, the phone numbers, e-mail addresses or URLs contained in the body of the mail message can not be used.
When the sender is not either of the above	E-mail: Only the sender's name and subject are received. Body text and attached data are not received. C-mail: Not received.

Turning on "Teens Restrict (M43✳)" and Teens Mode makes it possible to restrict call time and the number of mail (sended).

●Making a Call

To someone who is a Pair partner	No restriction
To someone who is not a Pair partner	Call time is restricted. Further calling is not possible if the call time exceeds the "Teens Restrict (M43✳)" setting.

●Sending a Mail

To someone who is a Pair partner	No restriction
To someone who is not a Pair partner	The number of sendings is restricted. Further mailing is not possible if the number of sendings exceeds the "Teens Restrict (M43✳)" setting.

To stop the Hot Buzzer

To stop the Hot Buzzer after it starts to sound, input the lock number.

※You cannot turn off the phone or perform any other operation while the Hot Buzzer is sounding. The Hot Buzzer will continue to sound until you input the lock number or the battery fully discharges.

Info

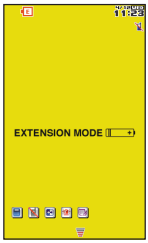

The Hot Buzzer sounds from the speaker of W41CA even when you have Casio flat-type stereo earphones 03/flat-type switched earphone microphone (option)/flat-type stereo earphone-microphone (option) attached to your W41CA.

Extension Mode

Using the extension mode, W41CA automatically shuts down the radio wave after issuing the Low Battery Alert. This is quite a useful function that you can still check Outgoing/Incoming Records, Content of e-mail, Address Book, Schedule and so on when necessary. In this case, you can only use the functions which needs no radio wave.

To turn on Extension Mode

While the standby screen is displayed, press ● 5 な JKL 2 か ABC 4 た GHI 1 あ .@ .

Display example when you switch to Extension Mode

In addition to the functions covered in this Basic Manual, your W41CA also has the following features.

Global Expert

W41CA supports Global Expert based on au IC card.
Global Expert is an international roaming service for the customers to use the phone replacing its au IC card with GSM cellphone for overseas use. No special application procedure or daily/monthly fee are needed, and the call charge is added up to domestic call, so the pay procedure is simple.

au Music

You can use au Music Player to enjoy a Chaku-Uta Full® or your favorite CD tracks. Also, you can download a Chaku-Uta Full® or purchase CD tracks by accessing our site ("EZ Music!" or "au Records").

PC Document Viewer

You can display such data created with PC as Microsoft Word®, Microsoft Excel®, Microsoft® PowerPoint®,PDF, HTML or mHTML. With this feature, you can display such data in full-screen, enlarged or reduced, landscape or portrait switch, or fitting.

Barcode Reader & Maker

You can use the camera to read QR codes and barcodes. Also, you can create your own barcodes directly from your address book entries.

Infrared communication

You can exchange the data saved in your address book, Schedule, or Data Folder between au cellphones supporting infrared communication.

EZ apps (BREW®)

Enjoy downloaded games and other software.

Macro Mode (Photo and Movie)

Pressing [✻] allows you to take close-up photos of food, flowers, and other subjects (closest focusing distance: 10 cm).

Serial Shot (Photo)

You can shoot up to nine consecutive images and store all of them or only selected images in memory.

Post Recording/ Telop (Movie)

After recording a movie, you can add audio or text. You can select from among 24 colors for the text and 169 colors for the background.

Mail Recipe (E-mail)

Simply follow the steps provided for quick and easy composing of Basic Mail without attachments, Photo Mail, Doodle Mail, Movie Mail, and Exciting Mail.

If you lose your W41CA

Turning on Remote Auto Lock makes it possible for you to set Auto Lock and FeliCa Lock on from a remote location. These lock function keeps others from using your W41CA.

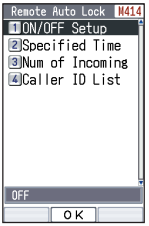

Configuring Remote Auto Lock Settings

You can set Auto Lock and FeliCa Lock on by making calls several times from the registered phone number to your W41CA within the specified period of time .

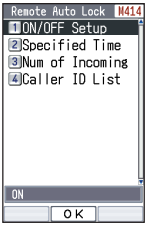

1 **While the standby screen is displayed, press ● 4 GHI 1 .@ 4 GHI.**

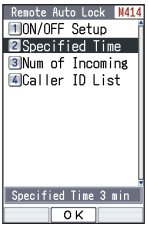

2 **Press 1 .@ (ON/OFF Setup), input the lock number, and then press 1 .@ (ON).**

3 **Press 2 ABC (Specified Time), input the lock number, input the period you want to specify, and then press ● (OK).**

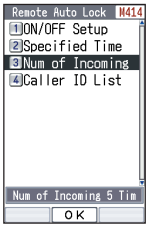

You can set the time period (the time intervals from the first call to the last call you should make to activate Remote Auto Lock).
You can set the time period between 1 to 10 minutes.

4 Press 3 さ DEF (Num of Incoming), input the lock number, input the number of calls you want to specify, and then press ● (OK).

You can set how many times you should repeat making a call to activate Remote Auto Lock. You can set it from 3 to 10 calls.

5 Press 4 た GHI (Caller ID List), and then input the lock number.

6 Use ◉ to select a registration number, press アプリ (Edit), input the phone number, and then press ● (Reg).

You can also press 回 (Menu) before inputting a phone number, and select the number from the address book, outgoing records, or incoming records, or you can specify a pay phone.

You can register up to three different phone numbers.

■ Setting Auto Lock and FeliCa Lock on

1 Make a call to your W41CA from the registered phone number within the period of time which has been specified in "Configuring Remote Auto Lock Settings" (page 114).

After repeating a call (3 to 10 calls you have specified), Remote Auto Lock turns active, and you hear an announcement letting you know Auto Lock and FeliCa Lock has been set.

After Remote Auto Lock turns active, your W41CA is automatically turned off, and turned on again.

CAUTION

Remote Auto Lock cannot be activated while your W41CA is turned off or outside of the service area.
